

Name _____

Trace the lines and connect the dots.

Tracing practice consisting of ten rows. Each row contains four identical zigzag patterns. Each pattern starts with a solid horizontal line from a white circle on the left to a black dot on the right. From the black dot, a dashed line goes up to a white circle, then down to a black dot, then right to a black dot, then up to a white circle, and finally down to a black dot. Small arrows indicate the direction of the path.
